

**dBA  
C-Compact**

Ceiling Support

**Description**

dBA C-Compact mini is an anti-vibration hanger to be used on false ceiling structures or pipe and air-duct suspension, for example . The metal profile is specially design so it can be easily cut or bent in different sizes , which allows it to adapt to different installations requirements, particularly when uneven floating ceilings are desired. The rubber element is responsible for the vibration insulation of the whole structure.

**Technical Information**

<b>Dimensions [mm]</b>		120 x 55 x 25
<b>Maximum Load per Support [kg]</b>	Min	8
	Max	20
<b>Natural Frequency at Maximum Load [Hz]</b>		10

**Specifications**

Material:  
**Rubber and Galvanised Steel**

Dimensions:  
**120 x 55 x 25 (mm)**

Installation:  
**Mechanical**

**Packaging**

Dimensions:  
**300 x 400 x 300 (mm)**

Units per box:  
**175 units**

Weight:  
**33,25 kg**

**Applications**
